Francis E. Walter Reservoir study units

Model units and roles

- FEW-D-01 — parameter donor
- FEW-D-02 — parameter donor
- FEW-X-01 — diagnostic only
- FEW-X-02 — diagnostic only
- FEW-X-03 — diagnostic only
- FEW-R-01 — residual unit
- FEW-R-02 — residual unit

Mapped features

- Reservoir
- River network
- USGS gauge
- Dam / outlet*
- River inlet†

Frozen NHDPlus HR / NLDI / WBD extract (EPSG:5070).
*Dam/outlet: project record, not an external survey. †Inlet: river–waterbody boundary crossing derived from source geometry.
D units supply parameters; X units are diagnostics excluded from parameter selection; R units are residuals. The map does not establish a live hydrology trace.
